

What's Planted in My Dream Garden

By Vihanga Walpita

Far away in the mountains, I was going for a walk. After a while, I saw some seeds on the ground. They were brown and very long. When I came home, I planted the seeds in my garden. The next day, I was going to go for a walk, After a while, I saw more seeds on the pathway! I rushed home to plant them. When I came to the backyard, I saw a very big bean stork! Then I planted the new seeds.-

The next day I went to my backyard and saw a big patch of bean storks! In my garden there are carrots, beans, potatoes, and at the far end of my garden is the huge patch of bean storks. My friends in school were so confused and surprised about it when I told them. Even. I was confused. I always wondered why my seeds became bean storks.

After a few weeks, I saw a wise old man walking towards my house. He said, "Do you have my magic seeds?" I said, "Yeah, they are in my garden." Then the wise old man said, "Okay, where is it?" Then I answered, "It is in my backyard." Then I lead the wise old man to my backyard. "Are these seeds really magic?" I asked eagerly. Then the wise old man said, "Yes, they are!" I was so amazed, Then the wise old man signed and said, "So, now I can't have my seeds back." "Yeah, they are gone now since I planted them already." I said,

The wise old man went away sadly. The next day my friend Mark came and said, "Wow, what a big garden you've got!" Then i replied, "Thanks, I am super proud of my garden. It is the best garden ever" "I want to plant a bean stork in my garden too." said Mark. So, the next day, Mark and I went to the mountains to find more seeds. I hope the wise old man drops more seeds.
